Located on the North coast of Mallorca, and tucked between the Sierra Tramuntana mountain and the sea this private and quiet Spanish villa offers one million square meters and space for up to 6 people. Reflections of the sea through windows filled with breath-taking Mediterranean light will give you inspiration and a relaxed moments

This small traditional farmhouse has been recently refurbished and transformed into one of the island's most authentic and exceptional properties, respecting the traditional Mallorquin style and using local materials and craftsmanship. The interior is all local stone, wood and whitewashed walls.

This beautiful villa has also a spring-fed plunge bath, constantly refreshed by water from the mountains. It is said, by all who tries, it to possess a remarkable ability to revitalize body and soul.

Finca EcoLuxe is a place to truly relax. Listen to the wind in the trees from the sea and the mountains and you will totally fall in love.

Mallorca's most famous adopted son, the Archduke Luis Salvador was first introduced to Valldemossa and Mallorca when stepping ashore at Es Racó (Finca EcoLuxe) in 1867 on his way to Sardinia. He immediately fell in love with it: so much so that he decided to stay, buying Son Ferrandell with Es Racó being the jewel of the property.

Little has changed since the days of the archduke on this part of the island, and we like to keep it that way. Well, almost. As there is still no electricity in the area we are completely self-sufficient with our own solar cells and back-up generator.
